## Health Equity and Cultural and Linguistic Competence Professional Development TRAIN-THE-TRAINER SERIES

The Partnership for Child Health is offering your organization, Mosaic: Health Equity (HE) and Cultural and Linguistic Competence (CLC) Professional Development Series, a strategic, train-the-trainer program to bolster culturally responsive and inclusive organizations.

The Mosaic: Cultural and Linguistic Competence and Health Equity Professional Development Series will assist leaders in:

- Promoting HE and CLC within organizational processes, policies and structures;
- Advancing knowledge of the National Culturally and Linguistically Appropriate Services (CLAS) Standards, disparities/disproportionalities data, cultural humility, implicit/explicit bias, structural inequities, cross-cultural communication, and trauma-informed service delivery;
- Creating inclusive climates and addressing barriers to quality, compassionate, and culturally responsive service delivery with diverse children, youth and families;
- Engaging multicultural community partners to advance HE across systems; and
- Supporting grant and contractual requirements.

**Located at Kids Hope Alliance**
