

FREE Healthcare Provider COVID-19 Training

Improve families' quality of life and well-being through informed shared decision making using culturally appropriate strategies

**TRUST:
FAMILIES &
PROVIDERS
MAKING
HEALTHY COVID-
19 DECISIONS**

Introduction to Cultural Humility and Health Equity in response to COVID-19

Participants will:

- Review COVID-19 inequities data and define health equity;
- Distinguish between cultural humility and cultural competence; and
- Identify barriers to COVID-19 vaccination and at least one communication strategy to address them.

Virtual and in-person training options available

Each learning module topic provides core cultural humility and COVID-19 foundation. Participants may select either training topic that meets professional development needs.

Effective Cross-Cultural Communication to Mitigate COVID-19 Vaccine Hesitancy

Participants will:

- Describe COVID-19 inequities;
- Identify COVID-19 health communication barriers and one strategy to reduce miscommunication; and
- Define health literacy and the teach-back method as a strategy to increase vaccine uptake.
